*Master  
Series.*

As thousands of sires enter stud worldwide each year, very few will be returned to service, added to a proof sheet and made available to dairymen worldwide. **Those that succeed in their second crop are widely considered to be the breed's elite and most desirable sires.** At Semex we call these sires the Master Series™.

**Semex's Designer Series™ sires are Semex's elite type sires.**

Hand-selected for their ability to sire individuals with Semex's famous high-type look, these elite sires are proven to be those that transmit the head-turning look breeders everywhere appreciate.
